## Education

Iowa State University  
*Bachelor's of Science in Software Engineering*

Ames, Iowa  
May 2028

## Experience

Wells Enterprises  
Incoming IT Intern

Le Mars, Iowa  
May 2026

Hy-Vee  
*Pay Station Clerk*

Sioux City, Iowa  
Jun. 2025 - Aug. 2025

- Operated the Aloha POS system to accurately and efficiently handle transactions for breakfast and lunch orders.
- Exhibited versatility and responsiveness by quickly assisting cross-department teams during high-demand periods.
- Provided excellent customer service while maintaining a clean and safe environment for both staff and customers.

## Community Involvement

Event Manager  
Iowa State University Vietnamese Student Association

Ames, Iowa  
Aug. 2025 - Present

- Collaborate with Executive Board Members in weekly meetings to propose, evaluate, and develop event concepts.
- Coordinate with multiple clubs, and ISU faculty to plan and host events, including club fundraisers and charities.
- Introduced a system to track event attendance for archival purposes and enable data analytics on popular events.

InnovAsian: APIDA Culture Show  
*Volunteer*

Ames, Iowa  
Mar. 2025

- Managed merchandise sales and inventory, ushered guests to their seats, and assisted in the setup and teardown.
- Communicated effectively with show staff and coordinated with other volunteers to ensure smooth operations.
- Circulated advertising materials that enhanced visibility and engagement for the show, resulting in 300 attendees.

## Relevant Coursework

COMS 2280 — *Introduction to Data Structures*

Fall 2025

- Gained a foundational understanding of Data Structure and Algorithm, such as Linked Lists, Stacks, and Queues.
- Completed mini-projects in Java implementing sorting algorithms and identifying Big O time and space complexity.

CPRE 2880 — *Embedded Systems I*

Fall 2025

- Collaborated with lab partner to meet lab goals and gain a deeper understanding of microcontroller registers.
- Programmed a Roomba, gaining hands-on experience with its hardware and embedded system principals.

## Projects

RecipeRus  
SE 3090 - Software Development Practices

- Collaborating in a team of four to develop an Android app enabling users to discover, search, and save recipes.
- Building the frontend components in Java using Android Studio and ensuring seamless integration with backend APIs.
- Participating in weekly team meetings and coordinating with TA to track milestones and monitor project progress.

Cy-Serve Delivery Robot  
CprE 2880 - Embedded Systems I

- Programmed manual control system in C on a Tiva TM4C123 microcontroller, translating keyboard inputs from a PC GUI to real-time motor commands for a mobile robot.
- Integrated and calibrated IR and PING sensors to detect object distance and width, transmitting sensor data via UART back to the GUI for remote navigation and obstacles avoidance feedback.
- Debugged compilation errors and collaborated with team of 5 to successfully navigate robot to 3 designated tables.

Personal Portfolio Website | [AndrewPhamGX.github.io](https://andrewphamgx.github.io)

- Developed a personal website using HTML and CSS to showcase projects and to further enhance web design skills.
- Built a personalized resume website by adapting a LinkedIn Learning template with custom design and content.
- Enhanced website functionality using JavaScript to add interactive UI and overall improve user engagement.

## Skills

- *Programming:* C, Java, HTML/CSS, JavaScript, React
- *Tools:* Visual Studio, Eclipse, Quartus Prime, QuestaSim, Linux, Android Studio, IntelliJ
